CAREER SUMMARY

Data-driven professional with 3 years of experience in market research, business reporting, and project delivery, leveraging analytical insights to identify business trends and translate complex data into actionable recommendations. Proficient in SQL, Python, Power BI, Tableau, and Excel, with skills in data cleaning, exploratory data analysis, dashboard development, and data-driven decision-making.

CORE SKILLS

- **Programming & Querying:** SQL and Python
- **Visualization & BI:** Power BI, DAX, Tableau, Excel, Google Sheets, Power Query
- **Analytics & Statistics:** Data Cleaning & Validation, Exploratory Data Analysis (EDA), Statistical Analysis, Business Analysis
- **Databases:** Google BigQuery, MySQL, and Microsoft SQL Server
- **Business Intelligence & Reporting:** KPI Development, Dashboard Design, Data Storytelling, Business Insights
- **Libraries, Data Processing and ETL:** Pandas, NumPy, SQLAlchemy, and PyMySQL
- **Tools:** Git/GitHub, Jupyter Notebook, VS Code

PROJECTS

Telecom Customer Churn Analysis | Excel, Python, SQL, Power Query, Power BI Link

- Cleaned 540+ raw customer records across 18 columns in Python (pandas, numpy), then engineered 5 features (tenure group, churn flag, senior flag, monthly revenue, customer value) and loaded 445 validated records into MySQL.
- Built a Power BI dashboard with DAX measures tracking churn, retention and revenue (22.16M), uncovering a 23.6% churn rate (105 of 445 customers) concentrated in Standard and Premium plans.

Ecommerce Sales Analysis | Excel, Python, SQL, Power BI Link

- Analysed 113,000+ ecommerce orders using Python, MySQL, and Power BI. Cleaned and transformed raw data using Pandas and NumPy, created sales, net amount, and profit metrics, and used SQL to analyse products, cities, payment modes, and cancellations.
- Built an interactive Power BI dashboard with DAX measures to track sales, orders, categories, and delivery performance.

TMDB Movies Dataset Analysis | Python, EDA, Statistical Analysis Link

- Analysed 10,800+ movies using Python, Pandas, and NumPy to identify factors influencing box office performance. Cleaned and filtered the dataset to 3,850+ reliable records, engineered a profit metric, and analysed the relationship between budget and revenue and profitability by genre.
- Found a ~0.69 positive correlation between budget and revenue, with Animation, Adventure, Fantasy, and Family among the highest-profit genres.

Decathlon Sales Project | AI-Assisted Excel Dashboard Link

- Analysed 30,000 retail orders using Excel and Claude, leveraging AI to build and automate formulas, PivotTables, charts, slicers, and Visual Basic for Applications (VBA).
- Built an interactive dashboard with 6 slicers and 6 KPI cards to analyse revenue, profit, margins, orders, AOV, returns, and performance trends.

PROFESSIONAL EXPERIENCE

Pre-Sales Analyst | Unimrkt Research **January 2025 – July 2026**

- Conducted secondary research and analysed healthcare market datasets to support 30-50 monthly B2B research proposals across pharmaceutical, MedTech, and healthcare sectors.
- Validated and consolidated data from multiple research sources, improving proposal accuracy and reducing stakeholder clarification cycles by 20%. Identified market trends, target respondent segments, and feasibility metrics to support business development decisions for global research agencies.
- Developed structured reporting trackers and performance dashboards to monitor proposal status, turnaround times, and operational KPIs.

Project Coordinator | Global Technology & Information Security (GTIS) **July 2023 – December 2024**

- Built Excel-based reporting solutions to track certification timelines, compliance status, project risks, and resource allocation across 100+ cybersecurity engagements.
- Analysed project performance data and compliance documentation to identify bottlenecks, improve visibility, and support audit readiness activities.
- Created structured dashboards and progress reports used by leadership teams to monitor engagement health and project delivery performance.

CERTIFICATIONS & EDUCATION

Google Data Analytics | Google August 2026
SQL Foundations | Microsoft October 2026
Visualization for Data Analysis with Power BI | Microsoft October 2026

Bachelor of Business Administration | Guru Gobind Singh Indraprastha University- CGPA: 8.4 2020 – 2023
12th Commerce| Central Board of Secondary Education- Percentage: 87% 2018 – 2020
